

COURSE SUMMARY

Halal Food Management

...bridge to a better product

INTRODUCTION

Halal food means any foods that are allowed to be eaten according to Syariah Law. This course is intended to provide the participants with knowledge on how to ensure that the food produced is halal throughout the process, from incoming materials to the consumer.

OBJECTIVES

- 🍷 To create awareness on how to ensure the halal integrity of products are maintained throughout the production process

LEARNING OUTCOMES

On completion of this course, participants will be able to:

- 🍷 Describe the requirements of Halal food production
- 🍷 Understand the requirements outlined in JAKIM's Manual Procedure and MS 1500:2009
- 🍷 Apply the requirements to their own food production facility, thus ensuring that their products fully complies with Halal criteria
- 🍷 Integrate and align existing food safety systems with Halal requirements

TARGET PARTICIPANTS

- 🍷 Halal Committee team members
- 🍷 Purchasing/Procurement personnel
- 🍷 QA personnel
- 🍷 Anyone who wishes to familiarize themselves with halal food production guidelines
