

✓ ISO 22000:2005

COURSE SUMMARY

ISO 22000: 2005 Internal Audit

...bridge to a better product

INTRODUCTION

This two-day course covers the entirety of the Food Safety Management Standard, teaching you about the standard, how to implement the standard and how to internally audit your system. Our experienced tutors will explore the ISO 22000 standard in-depth, with role-plays, workshops and practical exercises to ensure you go from beginner to expert.

OBJECTIVES

- 🍷 Learn to describe food safety with process approach and the purpose, structure and requirements of ISO 22000 from the point of view of an internal auditor
- 🍷 Gain knowledge about the responsibilities of an internal auditor and how internal food safety audit plays a role in the maintenance and improvement of food safety management systems
- 🍷 Acquire skills in the audit cycle of planning, conducting and reporting an internal food safety audit as a part of management system in accordance with ISO 19011 standard

LEARNING OUTCOMES

On completion of this course, participants will be able to:

- 🍷 Describe the responsibilities of an internal auditor and describe the role of internal audit in the maintenance and improvement of management systems
- 🍷 Describe, with reference to processes in the food chain and the model of a hazard analysis based FSMS, the purpose and structure of ISO 22000:2005
- 🍷 Plan, conduct and report an internal audit of part of a FSMS in accordance with ISO 19011

TARGET PARTICIPANTS

- 🍷 Any individual looking to audit against the ISO 22000 standard
- 🍷 Those looking to improve their skill levels and core understanding of Food Safety
- 🍷 Those who are looking to implement a food safety management system in their organization
- 🍷 Management representatives
- 🍷 Consultants
- 🍷 Quality directors
